bambol FRANELA DE BAMBÚ

FRANELA DE BAMBÚ

Un tejido completamente nuevo desarrollado y fabricado por Manterol en España.

Duerme en la suavidad de la naturaleza

Increíblemente suave, ligero y flexible, con una textura que acaricia la piel. El bambú y el eucalipto tienen una elasticidad natural que les permite adaptarse sin generar arrugas consiguiendo un tejido sofisticado y envolvente.

Antibacteriano e hipoalergénico

Previene la proliferación de bacterias y hongos *reduciendo el riesgo de irritaciones y alergias.*.

Transpirable

Regula la temperatura corporal.
Tiene una gran capacidad de absorción de humedad.

Ecológico y sostenible

El bambú crece rápidamente sin necesidad de pesticidas ni fertilizantes, lo que lo convierte en un excelente producto ecológico.
